Siddharth Nagar, Uttar Pradesh

GitHub: github.com/Vivek-pandey101

Profile

Full-stack developer with hands-on experience building scalable web and mobile applications using ReactJS, Node.js, MongoDB, and React Native. Experienced in designing REST APIs, implementing JWT authentication, and role-based access control systems. Skilled in developing complete applications independently including backend architecture, frontend UI, and mobile deployment.

Skills

Frontend: ReactJS, Redux Toolkit, TailwindCSS, HTML5, CSS3, JavaScript

Mobile Development:

React Native

Backend:

Node.js, Express.js, REST API Development

Tools & Cloud

Git, GitHub, Postman, JWT Authentication, AWS S3, Google Play Console

Database:

MongoDB, Mongoose

Professional Experience

20/01/2025 – 20/06/2026

Gyankosha Full Stack Web & Mobile Developer.

- Developed and maintained web platforms using ReactJS and backend services using Node.js and Express.js.
- Designed and implemented secure REST APIs with JWT-based authentication.
- Built role-based access control systems for Admin, Sub-Admin, and Users.
- Integrated AWS S3 for document uploads and cloud storage.
- Developed learning dashboards, quiz modules, and content management features.
- Built and published Android mobile applications using React Native and Google Play Console.
- **Led full-stack development independently including backend architecture, frontend UI, and database design.**

Gyankosha Learning Platform

Technologies: ReactJS, Node.js, MongoDB, React Native

- Developed role-based dashboards for students, schools, and administrators.
- Implemented JWT authentication and secure API architecture.
- Built dynamic quiz system and learning modules.
- Integrated AWS S3 for document and file management.

- Implemented JWT-based authentication systems.
- Built role-based access control (RBAC) architecture.
- Designed scalable REST APIs using Node.js and Express.
- Integrated AWS S3 for cloud document storage.
- Developed and deployed React Native mobile applications

Technologies: Node.js, Express, MongoDB

- Built JWT authentication system with secure login and token validation
- Implemented role-based access control for Admin and Users
- Designed REST APIs for user management

Languages:

Hindi — Native, English — Professional Working Proficiency

Education:

2019 – 2022 Bachelor of Arts (B.A.) Deen Dayal Upadhyay Gorakhpur University
